

A Quantitative and Qualitative Investigation of Tabriz Solid Waste
A Survey on the Relationship between Personality Factors and Sex in Students of Mazandaran University of Medical Sciences
Analyzing quality gap of nursing services in the selective academic hospitals
Application of *Moringa peregrina* seed extract as a natural coagulant for phenol removal from aqueous solutions
Application of Nanofiltration Technology in Heavy Metals (Ni, Cu and Zn) Removal from Wastewater
Assessment of quality of life in hepatitis B patients compared with healthy people
Assessment of Safety Status of Residential Housing in Rural Families of Ramian
Awareness of General Practitioners in Mazandaran Province on Leptospirosis and Related Factors
Bacterial Contamination in Bottled Water and Drinking Water Distribution Network in Semnan, 2012
Comparing the Effects of Cefazolin and Cefazolin Plus Gentamicin on Surgical Site Infection in CABG Patients
Comparing the Effects of Familiar and Unfamiliar Voices as Auditory Sensory Stimulation in Level of Consciousness among Traumatic Comatose Patients in Intensive Care Unit
Critical Thinking Abilities among Students of Medicine in Mazandaran University of Medical Sciences, 2011
Determinants of Personal Exposure to PM_{2.5} in Office Workers
Does internet is as a barrier or facilitation factor in academic life?
Effect of sorbitol on phenol removal rate by *lemna minor*
Effect of Zinc Supplement on General Health of ICU Nurses
Effects of Benson Relaxation Response on Stress Among Hemodialysis Patients
Efficacy of Hybrid Constructed Wetland in Removing Plumband Cadmium from Wastewater in the Campus of Mazandaran University of Medical Sciences
Efficiency of Zeolite Clinoptilolite in Removal of Ammoniumion from Polluted Waters
Epidemiologic Pattern of Job Stress in Managers of Iran Hospitals
Evaluating the Effects of Mesh in Umbilical Hernia Repair for Defects Less than 1 cm
Evaluation of corrosion and sedimentation potential of drinking water resources in Yasuj 2011-2012
Evaluation of extremely low-frequency magnetic field (ELF) at
Evaluation of PM_{2.5} Concentration and Determinant Parameters on its Distribution in Tehran's Metro System in 2012
Evaluation of the Different Fenton Processes Combined with Coagulation- Flocculation Pretreatment in Landfill Leachate Treatment
Evaluation of worker's exposure to crystalline silica particles in factories which are using sand and gravel Mazandaran Province
Factors Effecting distribution of medical specialists in Iranian national health system
Factors Influencing Oral Health Behavior According to BASNEF Model
First records of *Ornithodoros* sp soft ticks from an endemic relapsing fever region in Northern Iran
First report on natural infection of the *Phlebotomus tobbi* by *Leishmania infantum* in northeastern Iran
Frequency of Functional and Cognitive Impairment and Relevant Factors in Aging
Gap between the pattern of food consumption with interests in boy student's
Happiness and Associated Demographic Factors among Medical Students of Mazandaran University of Medical Sciences, 2010
Health and pharmacy students' views about the use of e-learning systems and its related factors
Heavy metals (Pb, Cd and Cr) in Water Collected From Gorgan Rood River, Iran
Influences of Solution Chemistry on Phenol Removal From Aqueous Environments by Electrocoagulation Process Using Aluminum Electrodes
Investigating Phenol Absorption from Aqueous Solution by Dried *Azolla*
Investigating the Cytotoxic Effects of *Penicillium Citrinum* on Cancer Cell Lines (HepG2), (A549), (SKOV3), (MCF7) and Normal Cell Lines (LLCPK1), (CHO) by MTT Assay
Investigating the Environmental Health and Safety Status among Primary Schools
Investigating the Removal Rate of Acid Blue 113 from Aqueous Solution by Canola
Knowledge, Attitude Referred to Health Centers on Salt Intake
Landfill Site Selection for solid waste based on the geomorphologic features using geographical information system (GIS)-(A case study in Gonbad City, northern Iran)
Malaria in Children, Prospects and Challenges

Mapping of Mortality Rate in Suburban Accidents, Mazandaran Province, 2007-2010
Methylene blue (cationic dye) adsorption into *Salvadora persica* stems ash
Modeling for Removal of Bisphenol A by Activated Carbon and
Municipal solid waste landfill leachate treatment by fenton, photo-fenton and fenton-like processes: Effect of some variables
Occupational Exposure to Respirable Crystalline Silica in the Iranian Mazandaran Province Industry Workers
Performance Evaluation of Artificial Wetland Subsurface with Horizontal Flow in Wastewater Treatment

Personal Exposure and Indoor Home Particulate Matter: A Review
Phenol Removal from Aqueous Solutions by Electrocoagulation Technology Using Iron Electrodes: Effect of Some Variables
Phenomenology of Perception and Behavior of Women in Safe Methods of Family Planning: A Qualitative Study
Phenomenology of Scientific Board's Views about Electronic Learning
Pregnant Women Life Quality Concept & Phenomenology
Preparing the Geographical Maps of the Relative Death Rate Out of Vaso-Cardiac Diseases in Cities of the

Proposing a reform in health system of countries under the system of General Deputy
Quality of Life Enjoyment & Satisfaction in Medical Students and Natural Resources Students
Randomised Clinical Trial Comparing Ligasure Hemorrhoidectomy with Conventional Hemorrhoidectomy
Removing Cadmium from Aqueous Environments using L-cysteine Functionalized Single-Walled Carbon Nanotubes
Screening for Bladder Cancer in Car Painters
Serum Level of Magnesium in Children with Febrile Seizure
Study on attitude of pharmacy students about learning conditions in Mazandaran University of Medical Sciences
Survey of chemical quality (Nitrate, Fluoride, Hardness, Electrical Conductivity) of drinking water in KHOY city
Survey on Temporal and spatial variation of nitrate and nitrite in drinking water of Gachsaran by using Geographic
Synthesis and Evaluation of 2(3H)-Thiazole Thiones as Tyrosinase Inhibitors
The prevalence of pediatric asthma in the Islamic Republic of Iran: a review and meta-analysis
The Study of the Effects of Four Avocado Extracts in Esophagus Squamous Cell Carcinoma
The Study of the Effects of Four Avocado Extracts in Esophagus Squamous Cell Carcinoma
University students' personality profile based on Costa & McCrae five factor theory
Zoning of water quality on Haraz river based on National Sanitation Foundation Water Quality Index
