

The role of mixed marketing elements (7Ps) in patients' tendency to the public and private hospitals from the perspective of patients and nurses

Survey on monthly variations of water quality in the Tajan River (Sari, Iran)

Assessment of quality of life in cancer patients

Application of Azolla for 2, 4, 6-Trichlorophenol (TCP) removal from aqueous solutions

presentation of a model for assessment of medically specialized workforce

Adsorptive removal of methyl orange and reactive red 198 dyes by *Moringa Peregrina* ash

Phenomenology of Students' Perception and Behavior on Oral and Tooth Health

Baseline Susceptibility of Different Geographical Strains of *Anopheles stephensi* (Diptera: Culicidae) to Temephos in Malarious Areas of Iran

Evaluation of Cadmium, Lead and Zinc Content of Compost Produced in Babol Composting Plant

The Quality Variations of the Drinking Water Sources in the Rural Regions of Sabzevar County in a Five Year Period

Survey of (PM2.5) Concentrations in Sari's City Center in 2010

Adsorption Rate of 198 Reactive Red Dye from Aqueous Solutions by using Activated Red Mud

Textile Wastewater Treatment by Electrocoagulation Process using Aluminum Electrodes

Studying Knowledge, Attitude and Behavior of Breast Cancer Screening Methods among Behshahr Dwelling Women

Early Detection of Breast Cancer among Women in Mazandaran, Iran

Epidemiology of the Mortality, Calculation of Life Expectancy and Years of Lost Life: The Case of Bane, North West of Iran

Investigation of Fungi in Drinking Water Resources as a Source of Contamination Tap Water in Sari, Iran

Application of Azolla for 2-Chlorophenol and 4-Chlorophenol Removal from Aqueous Solutions

Structural Quality and Utilization of Outpatient Curative Care Under Family Medicine Scheme in Rural Area of Mazandaran– Iran

Association between Lifestyle Satisfaction and Tendency to Behavioral Change with Health Related Quality of Life among 40 Years Old and Over in (North of Iran) Mazandaran

Epidemiological Survey of Prematurity in Gonbad-e Kavous in Golestan Province

The Study of Epidemiology of Tuberculosis in Bane (Kurdistan) between 2003 and 2010

Posture Analysis by OWAS Method and Prevalence of Musculoskeletal Disorders using Nordic Questionnaire among Workers of Sourak Tobacco Factory in 2013.

Relationship of Services Utility with Patients Tending to Hospitals

Survey on Environmental Indices of Primary School in Behshahr City, Iran 2012-2013

Study Survey of Efficiency Agricultural Weast in Removal of Acid Orang 7(AO7) Dyes from Aqueous Solution: Kinetic and Equilibrium Study

Effect of *Azolla filiculoides* on removal of reactive red 198 in aqueous solution

Baseline Susceptibility of Different Geographical Strains of *Anopheles stephensi* (Diptera: Culicidae) to Temephos in Malarious Areas of Iran

The status of caregiving among informal caregivers of community-dwelling elderly

Comparing cox model and parametric models in estimating the survival rate of patients with prostate cancer on radiation therapy

Survival of patients with gastric cancer in Mazandaran Province, 2007-2012

Biological nitrate removal processes from drinking water supply-a review

Pyrocatechol Removal From Aqueous Solutions by Using *Azolla Filiculoides*

Malaria in Children, Prospects and Challenges

The prevalence of pediatric asthma in the Islamic Republic of Iran: A review and meta-analysis

prevalence of Celiac Disease in Type 1 Diabetes Mellitus Children: A review of literatures in the Islamic Republic of Iran

The Relationship Between Locus of Control and Religious Believe with Mental Health in Students of Mazandaran University of Medical Science (2010)

Application of Nanofiltration Technology in Heavy Metals (Ni, Cu and Zn) Removal from Wastewater

The Impact of Pyrethroid Resistance on the Efficacy of Insecticide-Treated Bed Nets against African Anopheline Mosquitoes: Systematic Review and Meta-Analysis

The Quantity of Waste Produced at Mazandaran University of Medical Sciences and Evaluating the Possibility of Recycling

Adsorption of Bisphenol from Industrial Wastewater by Modified Red Mud

Efficacy of the two educational methods: Traditional and electronic techniques in training of nutritional aspect to healthy life style in elderly

Article

Epidemiology of Breast Cancer in Mazandaran Province, 2009 - 2010

Performance Evaluation of Artificial Wetland Subsurface with Horizontal Flow in Wastewater Treatment

Ephestia kuehniella Zeller (Lepidoptera: Pyralidae) ‘

Epidemiology of Tuberculosis in Lorestan between 2002 and 2008

Assessment of Organophosphorus Residues together in Strawberry Produced in Mazandaran, Iran

Prevalence pediculosis and associated risk factors in primary-school children of Mazandaran Province, Iran, 2012-2013

Pattern of Outpatients in the Northern Provinces of Iran-Nested Logit Model

Effect of Sunlight and Ultraviolet Radiation in the Titanium Dioxide (TiO₂) Nanoparticles for Removal of Furfural from Water

Fluoride Level in Drinking Water Supplies of Gonbad-e Qabus, 2008-2012

Effects of Components of Organizational Culture and Information Technology on the Implementation of Knowledge Management in Mazandaran University of Medical Sciences, 2012

Subacute and subchronic toxicity effects of the *Stachys lavandulifolia* water extract in rat

Subacute and subchronic toxicity effects of the *Stachys lavandulifolia* water extract in rat

Five-year Survival Rate in Hemodialysis Patients Attending Sari Imam Khomeini Hospital

Diagnostic Value of Elisa Versus Wright in Human Brucellosis with Positive PCR

Survival of Patients with Gastric Cancer in Mazandaran Province, 2007-2012

Factors Influencing Oral Health Behavior According to BASNEF Model

The Status of Caregiving among Informal Caregivers of Community-dwelling Elderly

Difference between Risk Factors of Common Ischemic Brain Strokes on Anterior and Posterior Circulation

Alterations in Anorectal Manometry Parameters following Treatment of Functional Chronic Constipation in Children

Self report of health promoting behaviors of nurses working in the educational hospitals

Respirable Particle Concentrations in Primary Schools\ Classrooms in Sari

Evaluating the performance rate of breast cancer screening methods and its relationship with breast cancer risk factors in Mazandaran province, Iran

Internal environment assessment of hospitals in Gorgan and Gonbad-e Qabus cities, Iran, according to Weisbord's six-dimension model

Removal of Fluoride from Aqueous Solution by Using of Adsorption onto Modified *Lemna Minor*: Adsorption Isotherm and Kinetics Study

Degradation of 4-chlorophenol by sunlight using catalyst of zinc oxide

Lignin degradation from synthetic wastewater of pulp and paper industries by using of UV/Fe-Doped TiO₂ photocatalytic process

Prevalence and associated factors of neonatal seizure in neonates admitted in neonatal ward of Bu-Ali Sina and Imam Khomeini hospitals, Sari, Iran

Fluorine Concentration in Drinking-Water Resources in Rural Areas

Geographical mapping of gastrointestinal cancer mortality rates in Mazandaran and Golestan provinces, Iran

Quantitative and Qualitative Study of Urban Septage in East of Mazandaran and Administrative Approaches

Determining the factors affecting recurrence in bipolar I disorder using Andersen-Gill counting process model

Effective factors on the risk of death caused by road accidents in Mazandaran province, Iran

Effective factors on the risk of death caused by road accidents in Mazandaran province, Iran

Health Related Quality of life among the Elderly Living in Nursing Home and Homes

Relationship between Mental Health, Demographic Variables and Academic Achievement of Medical Sciences Students

Temporal and Spatial Variation of Nitrate and Nitrite Concentration in Drinking Water Resource in Kohgiluyeh County Using Geographic Information System

Application of empirical Bayes smoothed incidence rates of tuberculosis during the year 2005-2011 to prepare geographical map of tuberculosis incidence

Prevalence of Attention Deficit Hyper Activity Disorder in High-School Students of Sari, Iran

Reviewing the Chemical Quality (Nitrate, Fluoride, Hardness, Electrical Conductivity) and Bacteriological Assessment of Drinking Water in Svadkooh, Iran, during 2010-2011

The efficiency of bivalve mollusk shell in removal of lead [Pb (II)] from aqueous solutions by central composite design model (CCD) and optimization of effective parameters

Determination of Fecal Coliform Contamination of Water Supplies in Some Rural Areas of Sari, Iran with Most Probable Number Test

The Ability of Azolla and Lemna Minor Biomass for Adsorption of Phenol From aqueous Solutions

The association between major dietary pattern and diabetes type 2

INDOOR PM₁, PM_{2.5}, PM₁₀ AND OUTDOOR PM_{2.5} CONCENTRATIONS IN PRIMARY SCHOOLS IN SARI, IRAN
